assumed a new role. The intense heat seemed to be melting the Browns. "Rube" acted the Good Samaritan by faming twelve of the heat sufferera. Heddrick seemed to be affected more by the heat than any of his fellow players, for Waddell fanned him three times. Wright also took the atmosphere treatment thrice, but this is excusable in a pitcher.

HOW THE RUNS WERE MADE. The Browns got away in the lead, scor-ing a run in the first inning. Burkett walked and stole second. Martin and Hill each fanned. Anderson broke a board on the right-field fence, scoring Burkett. Wallace flew to Houman. Seybold's double and Houman's single in the second inning gave the Athletics their first run.

Anderson's double and singles by Wallace and Sugden, coupled with two infield put-outs, gave the Brewns their last two runs of the game in the fourth inning.
Seybold's bunt and Murphy's double gave the Athletics a run in the sixth. Four singles and a long fly to Martin in the eighth inning gave the Athletics three runs and the game.

PRACTICE TO BEGIN SEPTEMBER 1. Missouri Expects to Have Football REPUBLIC SPECIAL

Manager Davis of the athletic department of the University of Misouri, says football He has ordered a dozen footballs and exand the most promising new candidates to be on hand at that time to begin practice.

Coach McLain is expected to arrive in Columbia soon to begin preparations for the season's work.

Last year the practice did not begin until later and as a result Missouri went into the first games with little preparation. This year each member of the team has been supplied with a ball throughout the summer and has been instructed to keep up a regular defly practice.

Manager Davis has apent the summer at his home in Kahokia, Mo.; Director Hetherington has been in New York and Coach MoLain has not yet arrived from Galesburg. Ill. Trainer C. M. Wheeler has been in Chicago during the summer. It is not known here whether the management will adopt the new football rules, but it is supposed that it will, as it has been the policy of Director Hetherington to eliminate, as far as possible, the roughness of the game.

PERWART HAS COOR TRIP.

Is Believed That He May Have ording to telegrams received by Carl Bahnsen yesterday, Henry Stewart, who is for the round trip between this city and Chicago, had a favorable journey until late

yesterday afternoon, and should be in Chicago by this time.
Stewart sent one dispatch from Springfield, which he reached at 6 o'clock yesterday morning. This is thought to be the most difficult stretch of road, and he was expected to have smoother sailing after passing that city. The roads are said to have been extremely rough between here and Springfield.

In a message later in the day he reported that his machine was moving nicely and that he had had but one accident-running over a dog. Assuming that no accident happened later in the day, Bahnsen thought it likely that he would reach Chicago some time late last evening.

From the time made to Springfield, it is probable that the mark set by Harry Geer will be lowered.

British Skipper Moves Load of His Boat to Give Her the Least Possible Water Line-Both Towed to Sandy Hook.

New York, Aug. 18.-The Reliance and Shamrock III were measured to-day in the Erie Basin by C. E. Mower, the official measurer of the New York Yacht Club. As the result of his measurements and calculations, it was announced to-night at the yacht club, that the Reliance will allow the challenger one minute and forty-five seconds over a thirty-mile course.

It was found that Shamrock III is slightly longer on the water line than the have nearly 2000 more square feet of sail area than the challenger, and it was this enormous sail spread that taxed the American boat so heavily.

The announcement of the time allowance in favor of the challenger caused little surprise at the yacht club, as it was the very general belief that the Reliance would prove considerably larger all around than her op-

general belief that the Reliance would prove considerably larger all around than her opponent.

The Reliance and Shamrock swung laztly at their moorings inside Sandy Hook tonight, ready for the international contest for the America's cup, the first race of which will be sailed on Thursday. Shamrock III merely returned to her old mooring-place, the Reliance going there for the first time.

To-day was one of exceeding interest to all directly interested in the international race, being devoted to official measuring and final groomings of both yachts.

The cleaning of the underbodies of both was completed this morning, and Charles D. Mower, the official measurer of the New York Yacht Club, stretched his steel tape from truck to deck and from the end of the bowsprit to the extreme point of the after overhang of both racers.

As one result, about eight inches of the end of the spinnaker boom of the Shamrock III was sawed off, owing to the fact that it was estimated to be that much longer than the base of the forward triangle, which covers the head sails of the yacht, which would mean penalization if allowed to stand.

Sir Thomas Lipton, as well as Mr. Iselin and Designer Herreshoff and Designer Fife, was an interested spectator of the work of Mr. Mower.

Designer Fife evidently desired that Shamrock III should be measured while down at the stern as much as possible, for everything movable, even to the jib sheet leader blocks, was moved and stowed amidables.

The measuring was completed at 4:45 o'clock, and both yachts were warped out of the basin. After supper for the crews, the tug Guiding Star took the Reliance in tow, while the English tug Cruiser performed the same service for the Shamrock III, both the yachts arriving at Sandy Hook at about sundown.

EXCELLENT CARD AT KINLOCH.

Six Good Races Afford Speculators

Many Good Opportunities.

Racing has been so excellent and firmful
at Kinloch that men who have been losers
at Delmar (and who has not), can scarce afford to let the meeting siide. It is, indeed, wonderful how quickly Messrs. Murphy and wonderful how quickly Messrs. Murphy and Maginn have brought the owners, trainers and jockeys to form. To be sure, the "cleaning up" of the last day at Delmar, when Judge Brady prepared house for Judge Murphy, helped a lot. But they are racing to form at Rinloch in a manner never before seen in St. Louis.

Lampadrome has run a few nice "feelers" and may clean Doctor Cartledge and Quaker Girl in the first race this efternoon, though it seems to be a two-horse race between this pair. Cartledge always beats the Girl, and doubtless will do it to-day. Quaker Girl's good race is the one to play her on. Throw out the bad ones. On that good one she can beat Doctor Cartledge.

Look out for Mendon for M to 1. He may be another Wenrick who could not run at Delmar. Watch Mendon with both eyes.

AT MALLORY'S MERCY.

Mallory has the second at his mercy if he he starts. D. L. Moore should go well, and Jos Goss will pack the weight without trouble. This kind of a race suits Goss exactly. Moore is a good horse, and has worked wen. Irene Mack's race was brilliant enough to give her a ripping chance here at the weights. Jake Weber and Theory also have chances.

It will be a hard race unless Mallory starts. Then he is "in."

KINSTELLE'S SPOT.

Doctor Hart looks best in the third race. Kingstelle has a race coming that will keep Mr. Suilivan in spending money all winter, and this looks like a suitable spot for her to put it in. Axares will run a good race, too, as will Engenia S. Doctor Hart, however, looks like the bet, with a jine out on Kingstelle. For this looks like a place where she should run her best race.

Baronet has a race to run to in the last event, and had better run to it. Satin Cont event, and had better run to it. Satin Coat is the contender. South Breeze will not like to run through the big field, and the hard track will not suit her. Marcos has not shown much of late. Jena 's not up to Baronet's form.
